To Whom It May Concern:

RE: Banner Exteriors & Banner Enterprises

I am pleased to take this opportunity to complement Banner Exteriors on the quality and professionalism that is exemplified by their company in all aspects of their business.

I have the unique perspective of knowing Banner as a business associate, client, and consumer of their services.

As a business advisor to them I am constantly impressed by how Mike and Joe run the business and treat all of their clients, vendors, employees, and associates. They are extremely ethical, fair, and consistent in all they do, and strive for the highest level of satisfaction for all the relationships they maintain. And they always seem to be at the cutting edge of their industry.

The quality of Banner's work is outstanding, as are the employees that perform it, and they make sure customer satisfaction is a priority. As a homeowner I can truly say they treat the job site and property as if it were their own, and are quick to make sure any concerns are addressed. As a consumer I have always found Banner to provide great value for the cost of their services.

I never hesitate to endorse Banner Exteriors, whether it is another business associate looking for a quality company and employer, or a homeowner looking for a service provider.

I look forward to continuing to work with them, and highly recommend them.

Sincerely,

Robert N. Cottone, Jr., AAI
